Foreign Office at Berlin Makes It Clear It Is Not Seeking to Create Situation That Would Be Regarded as "Unfriendly."

Ambassador Gerard Confers With Von Jagow and Is Informed Germany Has No Report on Arabic.

Unofficial Word Conveyed to President Wilson That Next Word From Berlin BROTHERS, PRISONERS 30 YEARS Will Be Satisfactory.

By Associated Press.

BERLIN, via London, Aug. 25.—The American Ambassador, James W. Gerard, called on Foreign Minister von Jagow last evening and asked for information concerning the sinking of the steamer Arabic. Mr. Gerard learned that the Government had no official news whatever on this subject.

The only information which the Government is that contained in newspaper dispatches from abroad, which throw little light on the circumstances attendis not even clear whether the disaster vas due to a torpedo or a mine and whether, in case the vessel was torpedoed, there were special circumstances which impelled the commander of the submarine to attack the Arabic.

Until official advices have been received definitely clearing up these points the foreign office will hardly be ir, a position to discuss the case or make any declaration of policy concerning the

Bradshaw's Office Already Loaded Down With Them, "All Good Democrats."

The Merchants' Exchange of St. Louis has made a vigorous protest against the proposal of State Warehouse Commissioner James T. Bradshaw to create sampling department in the Grain Inspection Bureau and charge 15 cents a car for sampling gram.

Bradshaw, who maintains his office in Kansas City, is coming to St. Louis to norrow to confer with a committee of the exchange. The committee represent ing the exchange is comprised of Thom as B. Teasdale, Henry C. Schutz, Edward L. Andrews, George C. Martin and John L. Messmore.

The members of the exchange cannot understand why Commissioner Bradshaw wants to do the sampling of grain in St. Louis unless perhaps to create more revenue for his office. The sampling of grain has been done for the exchange for 25 years by the firm of Barron & Wilson and the exchange nembers say that their service is highly efficient and satisfactory.

TO HELP HAITIENS. SAMPLING OF GRAIN DECLARES LANSING

Protectorate Proposed Merely to Free People From Revolutions That Ruin Country.

REPLY TODAY ASKED FOR

Washington Would Control Finances and Police of Island Republic 10 Years.

By Associated Press.
WASHINGTON, Aug. 25.—Secretary Lansing said today that the treaty the United States has submitted to Haiti proposing 10 years of American control of the island Government's finances had for its sole purpose the establishment of a stable government which could be entirely turned over to the Haitiens themselves.

The American Charge at Port-au Prince has asked the Haitlen Govern ment for an answer to the American proposals today. Secretary Lansing confirmed the outline of the plan as it was stated in yesterday's news dispatches from Port-au-Prince and said:

"We have only one purpose; that is to help the Haitien people and prevent them from being exploited by irresponsible revolutionists. These ahe not properly revolutions, they are unorganized enterprises, which tovolve no question of principle and they are ruining the country.

"While they are in progress people are starving in the streets of Port au Prince. because they cannot secure the supplies of food which abound in the country. Things have been going from bad to worse and something must be done. The United States Government has no purpose of aggression and is entirely disinterested in promoting this protecto rate. We have not even asked for Mole St. Nicholas."

The Secretary added that, of cours the arrangement would have to be approved by the United States Senate. been asked by the United States to apyears, the American Government would administer the finances and supervis the policing of the island republic. More Marines to Be Landed.

Attitude of Belligerents.

Lor.don stated that no obstacle would be placed in the way of such a conference. Berlin made a similar answer. Petrograd had no objection, but it appeared to be skeptical of the results conference could accomplish but said might go ahead. The Belgian Government preferred to regain Belgiun without it being made a second battle-ground, if that were possible, and without it being fought over again foot by

The resolution of the Anti-War Society of Holland, on Aug. 3, calling on that Government to take the initiative but upon the precondition of the restoring of Leigian independence, brought in a discordant note which threatened to upset the entire plan. It necessitated another visit to several capitals by some of the persons working on the ence scheme to get that matter straightened out again.

The next question, that of inviting America, came under consideration. Some of the neutrals were strongly for it; some were more or less indifferent. One belligerent was inclined to think that America was too inexperienced and without sufficient practical knowledge of European affairs, conditions and politics to play the star role in such a

None Would Take Initiative.

It was to have been decided the past week which of the European neutrals was to take the initiative in calling the others together. From what I learn here, on good authority, it developed, at the last moment that, while all were willing to take part in what several hailed as an excellent plan, none would agree to take the necessary initial move of calling the others together.

One wanted to go ahead without the 'big brother' across the seas. It was believed that the conference, without the influence of America, would stand little chance of accomplishing anything. On one hind, it was agreed that, in view of the situation between America and Germany, President Wilson could hardly take part at this time and, on the other hand, that the German victories in the East did not make the moment for peace efforts auspicious.

None the less, I understand that a depothers, representatives from the English and Dutch pacificists, will visit Presi-dent Wilson, early in September, in an effort to get him to take some step.

SIR THOMAS TO MAKE GOOD \$1,250,000 TO LIPTON LIMITED

LONDON, Aug. 25 .- Sir Thomas Lipton will pay \$1,250,000 out of his own pocket to make good deficiencies in the capital account and stocks of Lipton Limited, of which corporation he is the founder and chairman.

The announcement was made in his behalf at the annual meeting of the shareholders and changed their gloom into outspoken enthusiasm. Sir Thomas was not able to attend, having been il since returning from his second trip to Servia on Red Cross work.

The stocks of merchandise, it was explained, had been overstated in a pre-vious balance sheet by some of the managers, who have been dismissed since then, and who lost, it is alleged, a large sum in financing affiliated concerns that turned out badly. The chairman, it was announced, was not responsible for the losses and was under no obligation to assume them, his action in that respect eing voluntary.

For Summer Catarrh And Hay Fever

As there seems to be a regular epidemic of Catarrh and hay fever at the present time, the following prescription will undoubtedly be welcomed by many: Go to any good druggist and set I ounce of Parmint (double strength), take this home and add to it ½ pint of hot water and 4 ounces of granulated swar, sitr until dissolved, take one tablespoonful 4 times a day. This will often bring instant relief from such distressing symptoms as clogged nostrils, catarrhal discharges, head noises, dullness, watering of the eyes, sneeging, sore throat, etc. It is easy to prepare, costs little and seems to bring relief even to chronic sufferers. Every borson who suffers from catarrh or hay fever should give it a trial. hay fever should give it a trial .-

"We had a wonderful trip," said Father Schwitalla, "but met with no dventures beyond those which always ome to travelers in tropical countries n the way of faulty transportation, poor food and fights with insects. Father Schwitalla said that the party visited Belize, Corozal, Stann Creek, Puntagorda, Santillo, Barranco, Spanish Cay and Xeibe, a town inhabited by Maya Indians. Nine days were passed in Belize, the Government headquarters, and three days each in the other towns. The procedure in each place, he explained, was the same. The officials and the priest would be visited and questioned regarding diseases in the dis trict and a visit would be made to from 30 to 40 sick persons. Notes would be made of cases to be visited and studied the second day. The third day was given up to collecting specimens of insects in the district that might be disease car-

obtained. The priest said he had no idea as yet how many species were embraced in the collection and how many might be shown to be disease carriers. Col-lections were made also of the botlass Photographs were made also of the botlass fly, the doctor fly and the sand fly. Photographs were made each day and forwarded by mail to St. Louis. None of these have been developed. At Spanish Cay a collection was made of marine fauna which it is believed will be of great value in the biological studies at the university.

Disease Prevalent.
Saltillo is the center of the largest sugar plantation of the colony and although the visitors found the plantation conducted with the best known methods, they found every member of the 60 families working on the plantation suffering from some form of disease. The trouble generally was some form of disease. The trouble generally was some form of malaria, although there were many tropical ulcers, the cause of which has not been determined. In this district the visitors found swarms of mosquitoes everywhere at all hours of day and night.

Residents of Barranco were described by Father Schwitalia as being a type of

hy Father Schwitzlia as being a type of primitive people. They care nothing for clothing and live in huts built of branches of trees piled together.

SEVEN INDUSTRIAL FINED \$505 FOR SCHOOL BOYS RUSH GUARDS, ESCAPE

Seven boys escaped from the recrea tion yard of the Industrial School, Vir-nue was fined \$505 and costs in Judge ginia avenue and Meramec street, at 1:30 o'clock last night after one of them driving and disregarding traffic rules had picked the lock on the main gate. There were 190 other juvenile prisoners driving away at 1:30 a. m., after his car

in the yard at the time. One of the boys who escaped, Henry Huffendieck, 16 years old, was recaptured a block from the school. Those who got away were Joseph Wysockit, 15 years old, 2417 Calvary avenue; Leo Cline, 16, 2514 Montgomery street; Ed-ward Kastle, 17, 1223 North Fifteenth street; Morris Molivinker, 16, 1843 Di-vision street; William Meade, 16, 2403 North Taylor avenue, and Theodore Schott, 16, 1623 Semple avenue.

Louis Donk, who was in charge of the recreation grounds, was swept from his feet in the rush. The bell signaling the end of the recreation hour was due to ring about two minutes after the aders of the crowd reached the gate Officials at the school told the police the lock on the gate must have been picked during the day, probably with a

WILL OF DR. S. J. NICCOLLS GIVES ESTATE TO HIS WIDOW

Only Exceptions Are Bequests \$2000 Each to Minister's Two

Daughters. The will of the Rev. Samuel J. Nic ils, pastor of the Second Presbyteian Church, who died Aug. 19, was filed for probate yesterday. Except for be-quests of \$2000 each to his daughters, Mrs. Mary N. Samuel of Lake Forest, Ill., and Miss Grace Niccolls, the entire estate is left to the widow, Mrs Margaret A. Niccolls. At her death the estate is to be divided between the daughters. If either of the daughters dies before the mother, the estate s to be divided between the surviving daughter and the children of the deceased daughter in such propor-tion as seems just and desirable to Mrs.

No bequest was made to religious of charitable purposes because, as explained in the will, it had been for years the rule of Dr. Niccolls to give from one-tenth to one-sixth of his income to those purposes, and the widow is direct ed to continue, as far as possible, such

The will was written on letter pape by Dr. Niccolls. Miss Niccolls signed as one of the witnesses. This invalidated the bequest to her, because, under the law, a beneficiary may not be a witness. Miss Niccolls, in order that the will shall not be affected, has waived her rights to a share in the estate, but she will receive all that her father intended her to receive. The estate is not expected to contain much beyond the handsome home at 8 Hortense place.

Fruitola Came to Her Rescue

From her home in Mountain Park, Oklahoma, Mrs. O. A. Strange writes to the Pinus laboratories:

"I am taking Fruitola and Traxo for gallstones with good results. If it had not been that it came to my rescue, I would have been dead I am sure. I cannot say too much for Fruitola and Traxo.

Fruitola possesses properties that act directly upon the intestinal parts. It is a great system cleanser. Traxo is a tonic alterative that acts on the liver and kidneys, stimulates the flow of gastric juices to aid digestion and removes bile from the general circulation. It serves to build up and strengthen the weakened, run-down system.

The Pinus laboratories have many letters on file that testify to the merits of Fruitola and Traxo; letters from people who have used the remedy and know from actual experience what it has done for them. For the convenience of the public, the Pinus Laboratories, Monti-cello, Ill., have made arrangements to supply Fruitola and Traxo through leading drug stores.

In St Louis they can be obtained at Wolff-Wilson Drug Co., 6th and Washington.

The Aeolian-Vocalion

"Beautiful to Look at as well as to Hear!"

TOULD you possess a phono-V graph whose appearance harmonizes with the most beautiful in art furnishing?

We suggest the Aeolian-Vocalion, the lines of which were planned to fit gracefully with the "great creations" in furniture styles. The Vocalion has been termed the "phonograph amazing" because of its ability to deliver to the ear new and hitherto inaudible tone beauties from records.

And from its ability to vary every playing of a record as an artist varies his every performance.

Yet the price is no greater than other phonographs of similar grades. And as low as \$5 a month terms makes possession of a Vocalion undeniably easy—whether you buy a \$90 one or pay more.

American Professor Only Said Monarchy Was Best Under Prevailing Conditions.

WASHINGTON, Aug. 25.-The Chinese legation has issued a statement, based upon a cablegram from Pekin, declaring that Dr. Frank J. Goodnow, American adviser to President Yuan Shi Kai, had not advised the latter to set himself on throne as Emperor. The statement

whether a republic or monarchy was nore suitable for China, Dr. Goodnow's conclusion was that, inasmuch as the republican form of government had not fixed a method for determining presiential succession, the monarchial form of government would for this reason safer and more satisfactory, conforming, as it does, more to the gentus of the Chinese people, and the historical development of the nation, but he did not say whether this was the proper time for such a change."

Mail reports received here indicate that the constitutional drafting comnission, now sitting at Pekin, is undertaking to perfect a republican form of

paid by the consumers.

It was undisputed, the Court held, that the Eastman company controlled approximately 75 per cent or 80 per cent of the entire trade, and had, accordingly, obtained a monopoly.

PROFITS IN 1912

Federal Judge at Buffalo Points Out Enormous Gains of Eastman Co.

BUFFALO, N. Y., Aug. 25.-The Eastman Kodak Co. of Rochester is a monopoly in restraint of trade in violation of the Sherman anti-trust law, according to a decision handed down here yesterday by Judge John R. Hazel of the United States District Court. The decision grants the defendant company an opportunity to present a plan "for the abrogation of the illegal monopoly" on

the first day of the November term. Judge Hazel, in his opinion, stated that, while it appeared that no irremediable hardship would result from a separation of the present business into two or more separate companies, it was not at this time intended to indicate a dissolution, division or reorganization. It no doubt was possible, he said, that an adequate measure of relief might result from enjoining the unfair prac-tices of the terms of sale agreements and from a separation of the business; but the defendants should have an opportunity to present to the court on the first day of the 1915 November term a plan for the abrogation of the illegal monopoly, or if an appeal from this interlocutory decree were taken to the Supreme Court and this decision were affirmed such plan was to be presented within 60 days from the filing of the mandate.

The bill was filed June 9, 1913, against the Eastman Kodak Co. of New Jersey, Eastman Kodak Co. of New York; George Eastman, Henry A. Strong, Walter S. Hubbell and Frank S. Noble, all of Rochester.

Intentional Monopoly Charged.

The bill alleged substantially that from 1902 to 1906 the Eastman company of New York, intentionally monopolized the business of manufacturing and selling cameras, plates, photographic paper and film in the United States by acquiring control of 20 competing concerns, which were afterward dissolved, their plants dismantled and their business renoved to Rochester.

That the Eastman Kodak Co. of New Jersey acquired many stock houses engaged in different states in selling photographic supplies manufactured by de-fendants and their competitors.

That the defendants, with the intention of monopolizing the importation, acquired the exclusive right to sell in the United States and Canada raw paper stock from European paper mills—a necessity in the manufacture of photographic papers.

That from 1899 to 1908 all Eastman

products were sold by dealers under re-strictions and with discounts which stifled competition. In 1908, these dis-counts were discontinued and subse-quently so-called terms of sale were adopted limiting dealers to the handling exclusively of Eastman products under penalty of revocation of the right to deal in any of the Eastman commod-

By the acquisition of properties and nforcement of the terms of sale it was alleged the defendants acquired the largest percentage of the trade, unlaw-fully restrained such trade and obtained an illegal monopoly.

Defense of the Companies.

The defendants in their answer denied estraining trade or competition or engaging in a monopoly, and contended that their status was a result of the plants of products of a superior quality and of the manufacture of a cam-era in which they were the conceded

The opinion reviewed in detail the aculsition of the control of raw paper and of competing companies and stated that it was difficult to avoid the conlusion that these acts were for the purpose of suppressing competition and n furtherance of an intention to form in furtherance of an intention to form a monopoly. In substantiation of this it was pointed out that in nearly every instance the conveyances contained restrictive covenants prohibiting the oficers of the acquired concerns from reentering the business for periods ranging from five to 25 years, thus serving as in the tobacco case "as perpetual parriers to the entry of others." Monopolies thus formed, the opinion continued, were bound to become burdensome and menacing to industrial welfare and were

motion picture patents company were in violation of the statute.

The Court quoted the great gains and profits for the year 1912, which amounted to \$15,633,551.33, or about 171 per cent on total sales of \$24,763,407.65, as showing the large disproportion between the cost of manufacture and the price

In conclusion, Judge Hazel stated that there was a marked dissimilarity be-tween the acts disclosed in the case and tween the acts disclosed in the case and those disclosed in the United Shoe Ma-chinery and the Keystone Watch cases, which were decided in favor of the de-fendants to the effect that no monopoly was created.

In this connection the opinion stated that there was no limit in this country to the extent to which a business may grow, and that the acquisitions of proprty in this case standing alone not be deemed an illegal monopoly. But when the acquisitions were accor by an intent to monopolize and restrain interstate trade by an arbitrary use of the power resulting from the large busi-ness to eliminate a weaker competitor, then they no doubt came within the meaning of the statute.

Federal Judge at Buffalo Points Out Enormous Gains of Eastman Co.

BUFFALO, N. Y., Aug. 25.-The Eastman Kodak Co. of Rochester is a monopoly in restraint of trade in violation of the Sherman anti-trust law, according to a decision handed down here yesterday by Judge John R. Hazel of the United States District Court. The decision grants the defendant company an opportunity to present a plan "for the abrogation of the illegal monopoly" on

the first day of the November term. Judge Hazel, in his opinion, stated that, while it appeared that no irremediable hardship would result from a separation of the present business into two or more separate companies, it was not at this time intended to indicate dissolution, division or reorganization. It no doubt was possible, he said, that an adequate measure of relief might result from enjoining the unfair practices of the terms of sale agreements and from a separation of the business; but the defendants should have an opportunity to present to the court on the first day of the 1915 November term a plan for the abrogation of the illegal nonopoly, or if an appeal from this inerlocutory decree were taken to the Supreme Court and this decision were affirmed such plan was to be presented within 60 days from the filing of the

The bill was filed June 9, 1913, against the Eastman Kodak Co. of New Jersey, Eastman Kodak Co. of New York: George Eastman, Henry A. Strong, Walter S. Hubbell and Frank S. Noble, all

Intentional Monopoly Charged.

The bill alleged substantially that from 1902 to 1906 the Eastman company of New York, intentionally monopolized the business of manufacturing and selling cameras, plates, photographic paper and film in the United States by acquiring control of 20 competing concerns, which were afterward dissolved, their plants dismantled and their business renoved to Rochester.

That the Eastman Kodak Co. of New Jersey acquired many stock houses engaged in different states in selling photographic supplies manufactured by defendants and their competitors.

That the defendants, with the inten-

ion of monopolizing the importation. acquired the exclusive right to sell in the United States and Canada raw paper stock from European paper mills-a necessity in the manufacture of photo-

graphic papers.

That from 1899 to 1908 all Eastman products were sold by dealers under restrictions and with discounts which stifled competition. In 1908, these dis-counts were discontinued and subsequently so-called terms of sale were adopted limiting dealers to the handling exclusively of Eastman products under penalty of revocation of the right to deal in any of the Eastman commod

ities.

By the acquisition of properties and enforcement of the terms of sale it was alleged the defendants acquired the largest percentage of the trade, unlawfully restrained such trade and obtained an illegal monopoly.

Defense of the Companies. The defendants in their answer denied restraining trade or competition or engaging in a monopoly, and contended that their status was a result of the creation and development within their products of a superior qual ity and of the manufacture of a cam-

The opinion reviewed in detail the ac and of competing companies and stated hat it was difficult to avoid the conlusion that these acts were for the n furtherance of an intention to form monopoly. In substantiation of this it was pointed out that in nearly every instance the conveyances contained restrictive covenants prohibiting the oficers of the acquired concerns from rentering the business for periods ranging from five to 25 years, thus serving as in the tobacco case "as perpetual barriers to the entry of others." Monopolies thus formed, the opinion continued, were bound to become burdensome and enacing to industrial welfare and were entirely at variance with wholesome usiness conditions.

ment's claim that contracts for the manufacture of motion picture film entered into between the defendants and the motion picture patents company were in violation of the statute.

Profits of 171 Per Cent in 1912. The Court quoted the great gains and profits for the year 1912, which amounted to \$15,633,551.33, or about 171 per cent on total sales of \$24,763,407.65, as showing the large disproportion between the cost of manufacture and the price

paid by the consumers.

It was undisputed, the Court held, that the Eastman company controlled approximately 75 per cent or 80 per cent of the entire trade, and had, accordingly,

In conclusion, Judge Hazel stated that there was a marked dissimilarity between the acts disclosed in the case and those disclosed in the United Shoe Machinery and the Keystone Watch cases, which were decided in favor of the defendants to the effect that no monopoly was created.

In this connection the opinion stated that there was no limit in this country to the extent to which a business may grow, and that the acquisitions of prop-erty in this case standing alone would orty in this case standing alone would not be deemed an illegal monopoly. But when the acquisitions were accompanied by an intent to monopolize and restrain interstate trade by an arbitrary use of the power resulting from the large busi-ness to eliminate a weaker competitor, then they no doubt came within the meaning of the statute.

THRONG AT MILK FUND PICNIC AT DELMAR GARDEN

Outing of West End Business Men's Association Proves to Be Great Success.

ZINNER TO HONOR GUESTS

Gov. Major and Mayor Kiel Make Speeches; Children to Give Pretentious Show.

Business men of St. Louis in an organzed capacity have espoused the cause of the tenement district babies and becomporters of the Post-Dispatch Pure Milk and Free Ice Fund, for which the rirls and boys of the city have striver th enthusiasm and force for mor than 10 years.

The benefit for this fund, as a con picuous feature of the fifteenth anouting and free barbecue of the End Business Men's Asso ciation at Delmar Garden, yes-terday afternoon and evening, was the hearty sympathy and support of a throng of men, women and chil dren, the latter having the run of the garden in the afternoon. There also was n auction of goods donated by St. Louis herchants and manufacturers in the 'ate afternoon, in which John S. Harris of the American Trust Co. demonstrated that he can conduct a sale along that line with the best of them. Such as were not disposed of by Mr. Harris were not disposed of by Mr. Harris later were sold to splendid advantage by Alexander Selkirk, one of the city'

Governor and Mayor Present.

For the older people in the throng gathered in the evening, including hundreds of the association members who could not attend during the afternoon, occasion was full of interest. The social feature was, of course, delightful, and the men found it a splendid opportunity to discuss informally an idea that has taken strong hold of the association to bring the strength of the community into united play for civic progress. This was dwelt upon by Gov. Major and Mayor Kiel, and the movement in this way was given forward impulse. The speeches were delivered at a dinner given in their honor, and both were in happy mood and succeeded in imparting their state of mind to their

The special entertainment in the the ater for the benefit of the babies was varied and fitted the mood of the audience admirably. The program included moving pictures provided and oper-ated by the Mutual and Universal Film npanies, the Lears Photo Supply Co., an orchestra of 21 men furnished by the Musicians' Mutual Benefit Association, cabaret numbers provided by Oscar

Dane, and vocal duets and solos by J. Glenn Lee C. A. Gray. The affair in the theater was more or loss detracted from by the parade and Miss Fanny Gerger and Harold Codrill by the First Regiment N. G. M., under command of Col. Arthur B. Donith the regimental band, which too place about the same time and claimed attention of the multitude.

Those Who Made Donations.

Donations for the auction came from the Angelica Jacket Co., Missouri House and Window Cleaning Co., Blackwell-Wielandy Book and Stationery Co., A. S. Aloe Optical Co., Nash-Smith Grocer Co., Moil Grocer Co., St. Louis Inde-pendent Packing Co., Rose Medicine Co., Ely-Walker company, Niese Grocery Co., American Disinfectant Co., Bennett-Dreyer-Buss Belting Co., T. The remaining event on a large scale for the benefit of the babies this week, which is to be supplemented, however, by numerous efforts by children, individually and in small groups, is the fourth annual affair organized by Miss S. Friedlob. This is to take place Saturday evening at the Lindell Theater, Grand avenue and Hebert street. The company of 20 girls and boys assembled by Miss Friedlob have been rehearsing and otherwise preparing for it for about three months, and the general scheme and scope attest the skill and industry brought to the work.

The vehicle adopted for the benefit is

LETTERS FROM THE PEOPLE

The American Viewpoint. To the Editor of the Post-Dispatch.

I take great interest in reading letters from the people, and also your editorials in the Post-Dispatch, especially those dealing with the German-American situation. Your editorial in Sunday morning's issue entitled "Meeting Germany Half Way," is an example of sound United States rea-

We can see it just as easy and with the same vividness as our German friends. All their explanations are superfluous. The difference in our conclusions is not caused by our inability to understand the German viewpoint, but is brought about by the refusal of the Germans to realize that we have an American position to maintain which is paramount even to the Kaiser's position. In the ultimate analysis all views must be subordinate to the American view, our consideration for foreign Governments, and peoples, must be secondary to our sympathies toward the United

States and our people.

The German press in this country, and the various German societies, denounce as pro-British, everything that is not avowedly pro-German. They endeavor to so stigmatise our press, and our Government. But their efforts in that direction are wasted. Here again our analytical reasoning

THE COMMON MAN IN AMERICA.

The summary of the Industrial Relations Comission inquiry prepared by Basil M. Manly charges that the condition of the workers in this ountry has not improved in proportion with the crease in wealth

The extent to which immigration facts tend to omers are confined mostly to those from countries in Southern and Eastern Europe, whose standards of living are low, migration to us from Northern Europe having almost ceased. From this it is adduced that our industrial conditions present little or no superiority over those of Northern Europe, where smaller wages are pensions, various forms of social welfare effort.

Figures are cited purporting to show that the wealth of the United States has increased 188 know as little about the crime? Indeed, could per cent in 22 years while the total sum paid not the jury have rendered the verdict as well in wages to mining, manufacturing and transportation workers has increased only 95 per cent. One of the suggestions of the report as to remedies is this:

cent wages raise wage earners to a plane of thought and action where all their acts and mental processes must no longer be directed toward a desperate struggle for the very right of themselves and families to live.

It is easy to carp at this, but who can offer better suggestion? We know that the statement relative to indemnity for sinking the American is true as to a great many trades and callings, ship William P. Frye contained the following: In spite of the arrogance and corruption of exceptional unions and union leaders, why may it not be assumed that it would be true as to all trades and callings?

The war is expected to result in great better ments for the common man in Europe. He will have a wider opportunity under more democratic government, we are told. An improvement in can interests affected by attacks without warning his social and industrial status is inevitable.

FOXY BULGARIA'S CHOICE.

Bulgaria, which is said to have accepted the tender of a railroad by Turkey in preference to allies, is shown by the choice to be a pretty close figurer after all. She can put an interlocking directorate in charge of the Nish. Sofia & Dadeagatch road, form a heavily capitalized holding company, sell it "feeder" lines at exorbitant prices and perhaps grab off a few trolley roads for it to keep down the competition of interurban companies. Then, when a scandal comes she can insist on an increase in rates and do the same thing all over again.

It may be a little hard on the minority stock holders, but for Bulgaria it would be a good deal better thing than raising wheat at 15 bushels to the acre on twice as much land as the allies would be willing to give her.

Perhaps the German chemists are thinking up some kind of a bird lime that will hold the American eagle.

If it were investigated it would probably be found that this was only a partial statement of that paper, for no Socialist worthy of the name is so foolish as to believe that to solve the liquor problem we have only to sell it without profit. However, this would help to some degree.

The only way the liquor problem can be solved to stay solved is in the light of economic science. Man is a social animal and we must change conditions so that the good in mankind may express litself. DEEDS, NOT UNPROFITABLE WORDS. Ambassador von Bernstorff's note asking that

o definite stand be taken on the Arabic case until the German version of the facts is learned, has temporarily lessened the tension, but is of importance only so far as it may indicate s change in the Berlin attitude.

The last note sent from Washington to Berlin

As this disagreement has been reached after the full presentation of the views of both governments in our previous correspondence, a further exchange of views on the questions in dispute would doubtless be unprofitable.

A much fuller presentation of the views of both governments has been made in the correspondence on the questions in dispute over Amerion merchant vessels. Not only would a further exchange of views be unprofitable, but, so ex-America in the meantime? What forces can be haustive has been the discussion, no more views from those of the past.

The first essential was to convince Germany that the administration is resolutely in earnest in its determination to afford protection. The Von Bernstorff note is reassuring because it may show that progress is being made in that work of convincing Berlin. The disavowal of specific the liberal offers of territory made her by the intent as against Americans and tender of sympathy mark no change in attitude. Similar expressions were contained in Germany's representations after the loss of the Lusitania.

The singular disregard of our past protests was due to Germany's belief that she was called on to make a reply in words only and not deeds. SURCEASE FROM THE RAINS It is pleasant to recall old sayings about the rain after one has had too much of it and when

until the big guns begin thundering again on the western battle front. It may not be generally known that it was old Plutarch who, in his "Life of Caius Marius," writ-

ten about A. D. 60, first said: "Extraordinar pedoes and mines. "Extraordinary rains," said Plutarch. The torrential rainfall this year has caused some timid persons to think the end of the world is near, but Plutarch's observations should reassure them.

It was Dean Swift, author of "Gulliver's Tree els," who, in his "Polite Conversation," re marked: "I know Str John will go, though he was sure it would rain cats and dogs." And it was Burton, in his "Anatomy of Melancholy," who talked of it raining daggers. "For the rain it raineth every day" is from Shakspeare's "Twelfth Night," and is the refrain of the fool-

Perhaps the most pleasing reference to rain in any tongue is that in "The Song of Solomon," where the lover calls his beloved and says:

Rise up, my love, my fair one, and come away. For lo! the winter is past, the rain is over and gone; the flowers appear on the earth; the time of the singing of birds is come, and the voice of the turtle is heard in our land. The most picturesque rain ever described was

that which came, in the days of King Ahab, after a great drouth, when the Prophet Elijah brought else is an article written? a deluge in answer to prayer, as we are told. A little cloud came up from the sea, "like a man's hand." It grew and spread, and the prophet told the King to get his charlot ready and hasten that the rain might not stop him. "And it came to pass the meanwhile, that the heaven was black with clouds and wind, and there was a great rain. And Ahab rode and went to Jezreel. "That reminds me of the story of the man who was out hunting and saw two eyes in the dark. "'I was unable to make out whether it was a deer or a calf,' he said.

"'What did you do?' asked a friend. " 'I shot at it to hit it if it were a deer and to

miss it if it were a calf,' the hunter said. "It seems from the Ambassador's statement that the Germans fired their torpedo at the Arabic to hit it if it there were no Americans aboard and to miss it if there were. I can't make anything else of it. Certainly the submarine asked no questions before it fired. It was as much in the dark as the hunter who saw the two eyes."

"Maybe the Germans have a special torpedo that is not supposed to kill Americans," the Postmaster

"You never can tell. There are some wonderful devices in this war," Mr. Antwine said. "When you get to specializing in torpedoes the way the ans are, you can't tell what they might do. Maybe they are set to go off if they don't find any Americans on the boot and not to go off if they do." "There was some mistake, anyway, judging by

LAFE YOUNG GETS HIS.

The hide-bound, political speaker and Republican editor, Lafe Young, spoke at Chautauqua Park Monday night, and while he lauded the President freely, because he could not in decency do otherwise, he did not hesitate to insult Mr. Bryan, by saying, "it was all right for Sister Bryan to resign." Mr. Young announced a subject that interests many people just now. He claims to have been in the European war zone and had much to say about it, but he said nothing that the audience could not read out of any of the American daily papers and took up a good deal of time in throwing slurs at the various nationalities that go to make up the population of this country His insulting reference to Mr. Bryan, one of the greatest men of his time, shows the extremely small caliber of the Des Moines editor.

Of this amount \$50,000 will be paid to Cobb immediately upon signing the contract, while the balance will be paid to him over a stretch of three years.

Cobb, it is said, has taken the matter under consideration. Cobb's contract with the Detroit Tigers has three more years to run, and it is understoot the document is of the iron-clad type.

The Federal League officials, it is understood, have told Cobb that if highs up with them and is barred from playing by a court injunction he will be paid his full salary by the Federal for sitting on the bench, but this arrangement is not entirely satisfactor to Cobb, the story goes. Cobb want the money, but he wants to play base ball.

So complete was the change in the college game for the better, in this respect, that the 1915 rules include only a few new limitations to the assault-and-battery tactics of former days.

at least 12 complete games, and will be asked to help out in five or six more, if he holds up.

It's almost asking too much of one twirler to require him to shoulder such responsibility, and at a time when the attacks of all rivals begin to concentrate.

This last may mean considerable, if Bill James rejoins the Braves, early next month, to finish out the season. It was Stallings' idea to rest James for one month and pull him back fresh to wind up the race. Should Bill come back to last year's form for even one month, those Braves would just about settle the pennant question.

summer.

The boys are bantamweights and they set a sizzling pace from the beginning and maintained it to the end. They exchanged blows so fast it was hard for the eye to follow, and the crowd stood and cheered them for their splendid work. Whether at long range or at in-fighting, they strove with might and main for the advantage that was hard to gain.

the palms of his hands and planted a kisa on his lips.

A description of the bout, blow for blow, would be impossible and no record of the number of punches that shot to the mark could be kept. Demelfi was faster, and his judgment of distance was best. He was quicker, too, in seeing and taking advantage of opportunities to send in several punches, instead of only one, before getting away, blocking or coming to a clinch.

In comparison, Burns was slow to start, and Demelf fairly outboxed nim for points in the first rour rounds. In the second round Burns sustained a cut of the right eyebrow near the nosa and this may have bothered him a little but not much.

In the middle of the fifth round Burns suddenly started a rally and his onslaught was so fierce and rapid that the Zulu was forced back under pressure and it was not until near the close that he was again holding his own. It is no injustice to Demelf to accord Burns an even break in this round. In the sixth Demelfi maintained a slight margin by clever boxing, while Burns was trying to land a right swing for the jaw that generally missed because it fell short, was blocked, or went around the neck. It was not the only blow he tried with, however, and he landed many others—but he was receiving many in return.

Zulu Is Staggered.

Browns' Owner Issues Statement to "Clear Up Reports That Branch Would Go."

Branch Rickey will manage the Browns next season, was the announcement made by President R. L. Hedges this morning. After reading the report from Chicago that Jimmy Callahan would be the next leader of the team, and that a salary difference of \$3000 was all that kept the former White Sox boss from signing. President Hedges gave out the following statement:

"We can stop all those rumors about Jimmy Callahan or anyone else managing the Browns next season, as Branch Rickey will again be in charge

It is board of strategy next season.

After losing eight straight games, the Browns came to life yesterday and took a double-header. 10—1 and 6—2. But they were opposed to the remnants of a former champion, the Athletics. Just four players of last season's champions were in the lineup and two of them were ont of their regular positions. Strunk was at first and Schang at third. The other pair were Oldring and Walsh.

While it is no great honor to beat the men of Mack as they look at present, nevertheless it broke the losing streak of Rickey's aggregation.

The second battle showed that Rickey has another young twirier, who gives a lot of promise. He was Hoff, the southpaw, obtained from Rochester. Hoff won his game, 6—2, and allowed the Mackmen only three hits. Schang made one of these, while Walsh grabbed the other pair.

Bureau of the Post-Dispatch.

NEW YORK, Aug. 25.—The Evening
Post, in its copyrighted financial review today says:

"As in yesterday's later market, after the news of Count von Bernstorff's
note had been received, so at the Stock
Exchange opening this morning, the
paramount influence was the fact that
the German Government is laboring to
avert a breach with the United States.

"Wall streets discussion of the German communication did not differ from
discussion of it elsewhere, in that its
actual text was in a measure disappointing. That it was not in terms a
disavowal; that it reserved the privilege of denying the presence of a German submarine in the Arabic disaster;
that it did not even intimate regret in
case the Arabic was torpedoed without
warning, except regret that American
citizens happened to be drowned—ali
this opened up the possibility of unsatisfactory conclusions. Had precisely
such a note been sent in the Lusitania

week, Wall street, like the rest of the country, would have read it with indignation.

Sentiment Not Pessimistic.

"But it was also recognized that a good deal of water has flowed under the mill since the infamous action of last May. Our Government has submitted a virtual ultimatum, and the Berlin Foreign Office must be perfectly well aware of what is necessary to conform to it.

"Beyond all else, the reasoning of the financial community and the market was, this morning, that the German Government is taking what would in any case be the first step towards a formal disavowal. The intentional ambiguity of language might be readily ascribed to the wish to break the Government's change of attitude genity to the German people, or it might be explained by a wish to spare the feelings of the Von Tirpitzes and Reventlows. In either case, the disposition on the Stock Exchange was to give to the authors of the note full benefit of doubt. If mistrust and uncertainty are hereafter to surround the question when a fair time

benefit of doubt. If mistrust and uncertainty are hereafter to surround the question when a fair time limit shall have expired, and Berlin is asked by Washington to state its purposes more explicitly, the market will cross that next bridge at the proper time. By Roy L. McCardell.

Mr. Jarr Wonders Whether His Wife Would Be a Merry or Mournful Widow.

BELIEVE," remarked Mr. Jarr the other evening, "that nine widows out of 10, if they would tell the truth about it, are more pleased than pained at their lo:."
"What do you mean?" asked Mrs.

Jarr, sharply.
"Just what I said," replied Mr. Jarr. All the widows I ever met, allowing them a little time to dry their tears, ere suspiciously serene and satisfied."
"Poor widows?" asked Mrs. Jarr.
"There!" cried Mr. Jarr. "Your very

remark proves what I say. I see a lot of widows 'whose 'whole air implies 'Well, he's cone, but, thank goodness, he couldn't take his money with him!" "That's the way all you men talk!"
Id Mrs. Jarr. "You are all so selfish

that, while you wouldn't want us to marry again, you regfet the fact that you must provide for us to keep us from arrying again. I'll admit that it is she need not worry about her income money of her own at last, and she car spend what she wants to spend and doesn't have to obtain money under false pretenses every time she needs a "Widows wear mourning; that isn'

But do you know that good mourning is very expensive? The houses that make a specialty of mourning goods charge terribly," she replied.
"Been investigating?"

'No, I haven't," said Mrs. Jarr, "but went with Mrs. Kittingly to price things, the time her husband was so ill. "But he didn't die,' said Mrs. Jarr.

Yes, as she said, that was always his way. She told me that when he knew her heart was set on anything it was just like him to disappoint her."

"That's what a lot of them say," re-led Mr. Jarr. "And so when they come real widows the vagaries of bands no longer annoy them. Sup- again." pose I had a lot of money and were to depart this earth, would you care?"
"What a heartless question to ask?"

than mournful ones," said Mr. Jarr. "And so you think most widows are rather glad of it?' asked Mrs. Jarr.

Mr. Jarr nodded.
"Then why do they almost invariably marry again?' asked Mrs. Jarr. "I don't know why,' said Mr. Jarr. "Unless it's the placid pleasure with which they anticipate wearing weeds
